

Exporting Builda Price compatible file from Bunnings

Below are instructions from Bunnings to obtain the compatible file from Bunnings.

- 1. The process for Bunnings builders to get a priced job file to imported into Builda Price pricing program**

Bunnings builder need to request a Builda Price compatible file (.CSV file) at the time they drop their plans off to be measured. The plans have to be measured at the quote office up in Auckland to get the right file format.

- 2. The process for Bunnings builders to be able to download invoices to imported into Builda Price Job tracker**

Bunnings will send the Builda Price file (.CSV file) to the Account Manager upon completion who will forward it onto the builder.

If you have any issues with this process, please do not hesitate to get in touch.
